

Windows 8 Setup Instructions

Step 1a - Determine Windows Version

FloorWizard will only run correctly in the 32 bit version of Internet Explorer at this time. To ensure you are running the correct version, do the following:

- ❖ Hover in the bottom right corner of your desktop.
- ❖ On the Start screen, type **Computer**, press and hold or right-click **Computer**, and then tap or click **Properties**.
- ❖ Look under **Windows edition** for the version and edition of Windows that your PC is running.
- ❖ Look under **System** for **System type** to see if you're running a 32-bit or 64-bit version of Windows.

Step 1b - Uninstall Current Java Version

Now, you need to Determine if Java is already installed on your computer. Here is how you can check:

- ❖ Swipe in from the right edge of the screen, and then tap **Search**.
- ❖ (If you're using a mouse, point to the upper-right corner of the screen, move the mouse pointer down, and then click **Search**.)
- ❖ Enter **control panel** in the search box, and then tap or click **Control Panel**.
- ❖ Under **View by:**, select **Large Icons**, and then tap or click **Programs and features**.
- ❖ Scroll through the list of installed Programs and check if Java is installed. If Java is nstalled on your PC, you will need to **Uninstall** it before proceeding. If Java is not installed, Skip to Step 2.
- ❖ Tap or click the Java program, and then tap or click **Uninstall**.
- ❖ Follow the instructions on the screen.

Step 2 - Install Required Java Version - 1.7.0_60

Now, you need to install the FloorWizard compatible version of Java:

- ❖ Click the Link below and follow the instructions on screen to download Java.
<http://www.floorsoft.com/dl/jre-7u60-windows-i586.com>
- ❖ Once Java is installed, close all internet browsers.
- ❖ Swipe in from the right edge of the screen, and then tap **Search**.
(If you're using a mouse, point to the upper-right corner of the screen, move the mouse pointer down, and then click **Search**.)
- ❖ Type "**cmd**" in the search box
- ❖ The **Command Prompt** option will appear as a search result. **Right click** on Command Prompt and select **Run As Administrator**.
- ❖ When the Command Prompt window opens, type the following command EXACTLY as it appears below for your version of Windows:

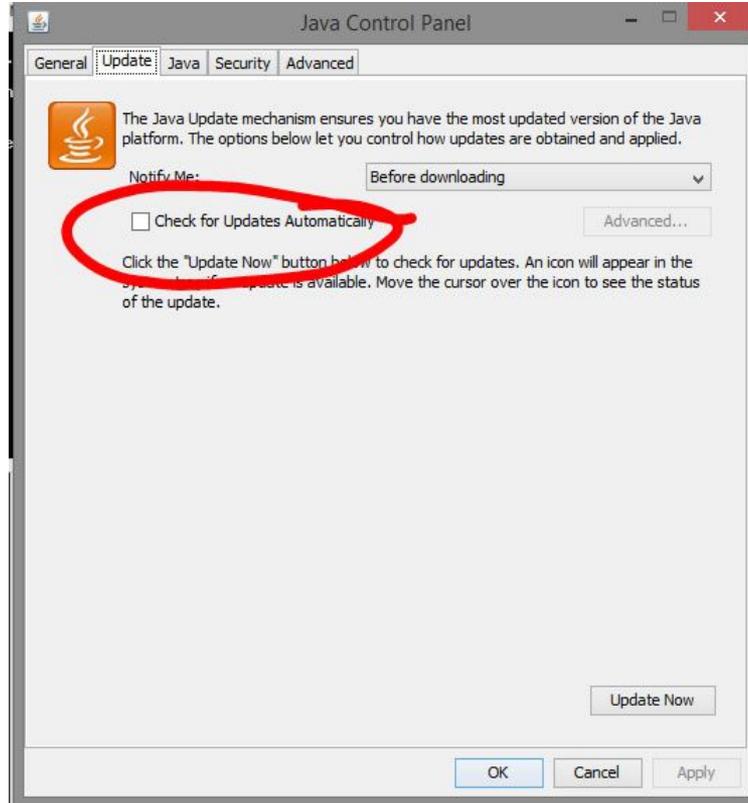

32-BIT Windows 8 or 8.1

```
"c:\Program Files \Java\jre7\bin\javacpl.exe"
```

64-BIT Windows 8 or 8.1

"c:\Program Files (x86)\Java\jre7\bin\javacpl.exe"

- ❖ You can also copy and paste the command if you prefer. When the command is entered, tap **Enter**. You should notice that the Java control panel has opened.
- ❖ Click the **Update tab** of the Java Control Panel, and **uncheck the box** that says "Check for updates automatically"

- ❖ On the next popup box, click **Do Not Check**

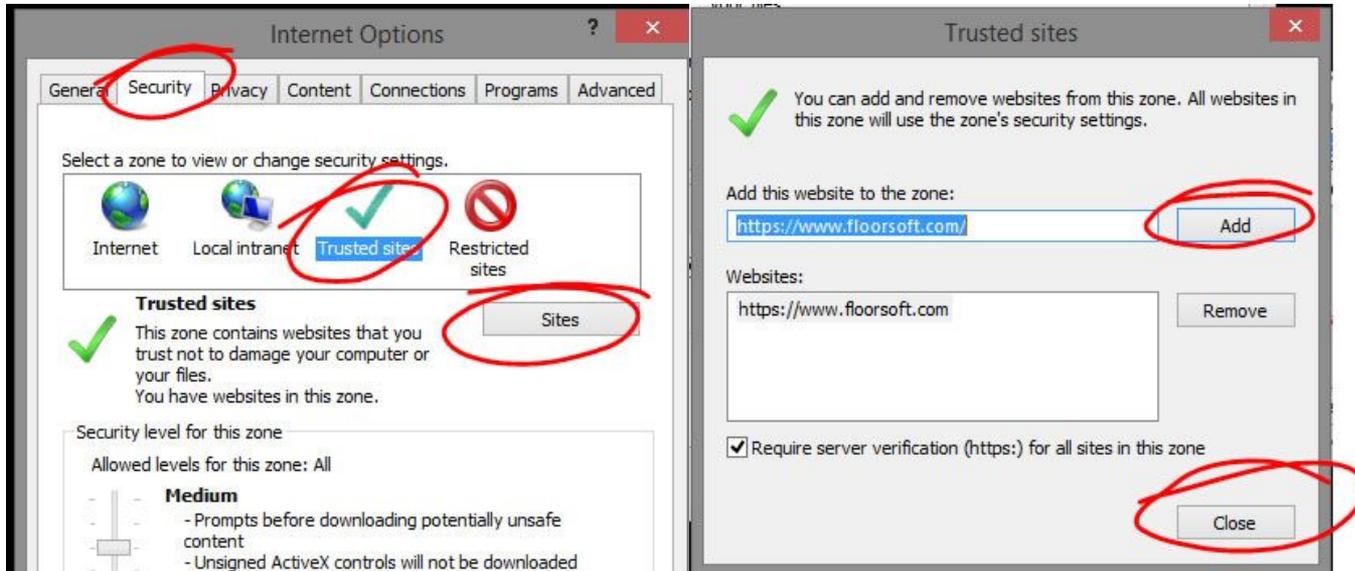

- ❖ Click **Apply** then click **Close** to Close the Java Control Panel.
- ❖ Click the Red X to close the Command Prompt Window.

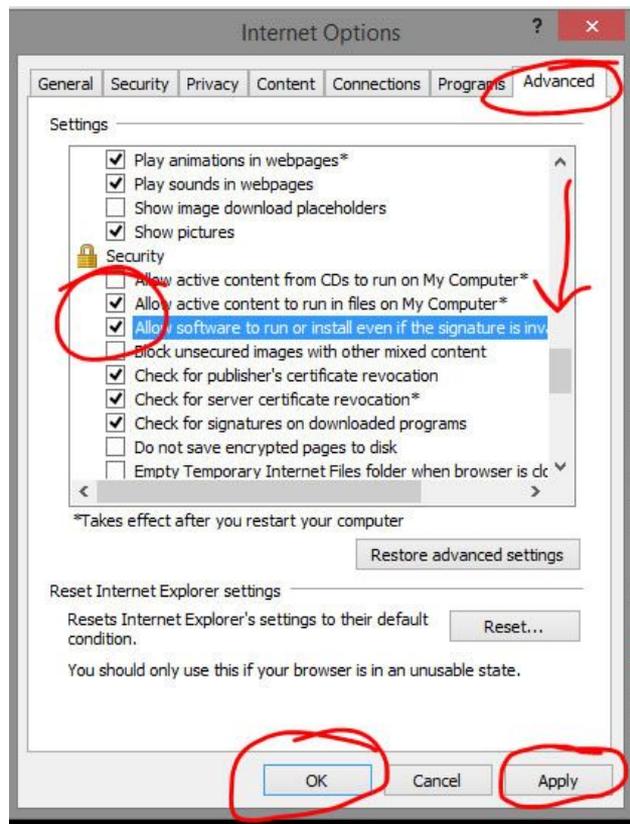

Step 3 - Change Internet Explorer Settings

FloorWizard is only compatible with Internet Explorer at this time. Please read below to configure Internet Explorer correctly:

- ❖ Open Internet Explorer, and go to the FloorSoft Website at <https://www.floorsoft.com/>.
- ❖ In the top right corner of the Browser window, click the **Options** button. You can also click **(alt + x)**.
- ❖ Click **Internet Options** from the drop down menu that appears.
- ❖ Click the **Security Tab** then click to highlight **Trusted Sites**, then click the **Sites** button.
- ❖ On the next panel, click the **Add** button to save floorsoft as a trusted site. Click the **Close** button.

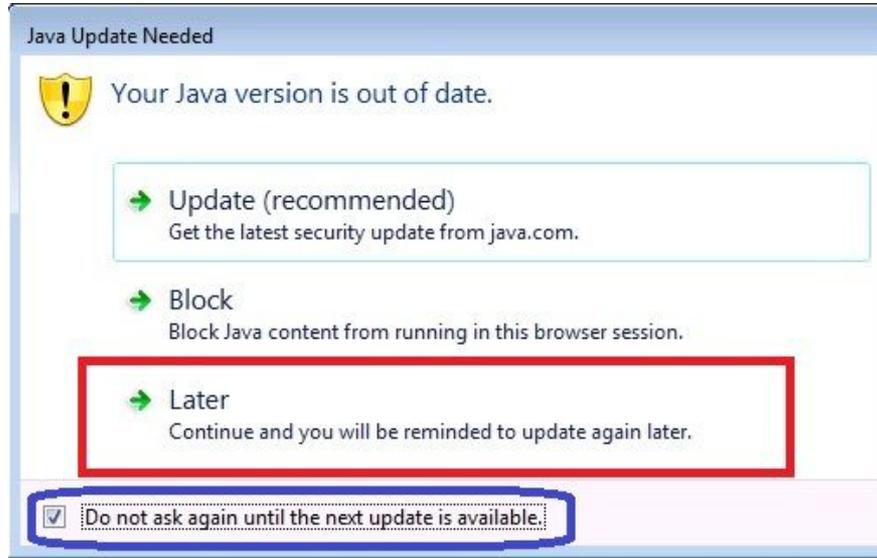

- ❖ Next, click the **Advanced** tab and scroll down until you reach the Security section. Place a **check** in **both of the boxes** as shown in the picture below. Next, click the **Apply** button to save your changes, then click **OK** to close the Internet Options panel.

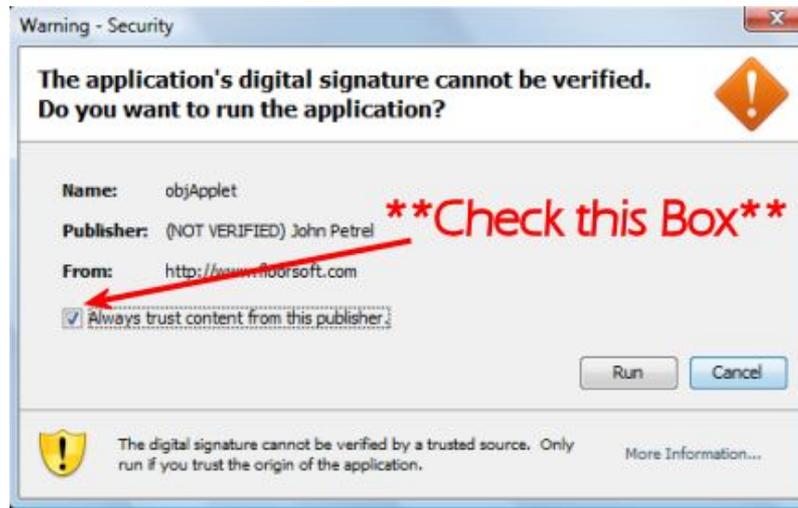

Step 4 - Complete the Setup by Installing FloorWizard

- ❖ Internet Explorer should still be opened to the FloorSoft website. From there, click the **Support** tab and click the **FloorWizard Logon** button.
- ❖ You will need your FloorWizard logon and password to continue. If you never received this information, please call our main office at (706) 226-0960, and one of our reps will assist you.

- ❖ Enter your Logon and Password then click the **Logon** button. You will navigate to the FloorWizard Home Page
- ❖ Click the **Project Center** button.
- ❖ The system will begin to Install the necessary FloorWizard files automatically. When the following dialog box appears, Check the box next to "**Do not ask again....**" and then click **Later** to continue. See below:

- ❖ When the Java digital signature verification box appears, check **Always trust content from this publisher**" and then click the **Run** button as shown below:

- ❖ The file download may take up to 15 minutes depending on speed of your connection. You should automatically navigate to **Project Center**. The FloorWizard setup procedure is complete!!
